

We are counted among one of the leading Manufacturer, Retailer, Wholesaler and Supplier of Industrial Products like CI Casting, Step Pulleys etc. Our products are valued for their high durability, dependable service and corrosion resistant finish.

- Profile -

Based at Delhi, India, “Bajaj Mill Stores” is one of the foremost manufacturers, retailers, wholesalers and suppliers of admirable quality Industrial Products like CI Casting, Step Pulleys etc. with the support of our robust infrastructure we offer large product line that includes Gun Metal Casting, Gun Metal Impellers, Brass Impellers, Aluminum Pulleys, Stainless Steel Impellers, CI Impellers, etc. Crafted from premium class basic input our products are valued for or features like steadfast performance, extended service life and dimensional accuracy. Our R&D unit helps us in introducing innovatively designed machine parts to meet the demands of many heavy duty industries. Our trained technicians and experienced engineers have the capacity to manufacture our pulleys and other industrial parts with utmost precision. In addition to this, our qualified quality controllers examine every finished product to ensure that it is of high quality and flawless.

We always have special consideration for fulfilling the specific needs of the clients thus we manufacture customized products that are appropriate for their exact demands. The overall array offered by us is completely in tune with the industry standards of quality. Our state-of-the-art infrastructural facility plays crucial role in meeting the urgent and bulk orders of customers within the pre fixed schedule. Ethical trade procedures increase our credibility in the industry.

Under the competent administration of our mentor **Mr. Samarth Bajaj**, who is also the CEO of the company, we have succeeded in garnering tremendous respect and trust of the national market as a respectable lock pulleys manufacturers in India. His in depth vision for business is constantly helping in our progress.

INDUSTRIAL IMPELLERS:

With the assistance of our highly trained and experienced team of technicians and engineers, we have succeed in carving out a place of importance in the field of fabrication, wholesale, retail and supply Industrial Impellers.

Brass Impellers

Gun Metal Impellers

Stainless Steel Impellers

CI Impellers

CENTRIFUGAL PUMP IMPELLERS:

A centrifugal pump converts the input power to kinetic energy in the liquid by accelerating the liquid by a revolving device - a centrifugal pump impellers. The most common type is the volute pump. Fluid enters the pump through the eye of the centrifugal pump impellers which rotates at high speed. The fluid is accelerated radially outward from the pump chasing.

Centrifugal Impellers

Finished Impelleres

Close Impellers

Double Section Impellers

MUD PUMP IMPELLERS:

Varieties of mud pump impellers are majorly used in Chemical / Fertilizer / Paints & other relating industries.

Major advantage is its highly abrasion resistant & hence best suited for slurry applications & has an excellent resistance to almost all kind of acids, alkali & solvents.

Open Impellers

Heavy Open Impellers

Semi Opened Impellers

MONOBLOCK PUMP IMPELLERS:

With the help of our expert workforce, we are designing and developing a wide range of centrifugal monoblock pump impellers.

Featres :-

- Higher Efficiency
- Better Surface Finish
- Free from casting defect
- Faster Deliveries
- Exact size
- ballanced

Monoblock Impellers

Casted Impellers(Shortblast)

Sumersible Pump Impellers

PUMP CASING:

With the assistance of our highly trained and experienced team of technicians and engineers, we have succeed in carving out a place of importance in the field of fabrication, wholesale, retail and supply Industrial casing.

We offer top class finished impellers casing as per our customer's requirements. These pump casing are high quality valves for uses in processing industries.

Pump Casing

Chamber (Volute)

Industrial Flange

Pump Diffuser

INDUSTRIAL PULLEY:

We are largely into manufacturing industrial pulleys useful in varied industrial purposes. Our range of industrial pulleys is highly convenient to use in large scale industries.

Variable Pulleys

Alluminium Pulleys

Cast Iron Heavy Pulley

Cast Iron Heavy Split Pulleys

CAST IRON V BELT PULLEY:

Our company offers a wide range of premium quality C.I V Pulley With Groove. Manufactured by using superior material and skilled technical team, the drum pulley is used for vertical lifting of materials in the conveyor belt. We offer these pulleys at industry leading prices.

CI V Belt Pulleys

C. I V Light Pulleys

C.I V Medium Pulley

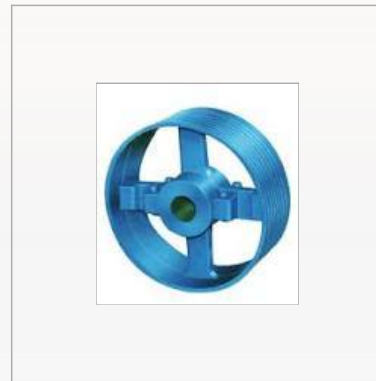

C. I V Solid Pulley

C.I FLAT PULLEY:

C.I Flat Pulleys are used in transmission systems that are driven by flat belts, typically high-speed, low-power applications in textiles, paper making, and office machinery such as computer printers.

Cast Iron Flat Patta Pulley

C. I Flat Split Pulley

C. I Flat Motor Pulley

C. I Flat Tapper Pulley

STEP PULLEY(speed reduction pulley):

We have in store for our clients a premium grade range of Drill Pulleys. It is designed and developed in sync with prevailing industry requirements and high international quality standards. We use quality raw material that is procured from trusted sources. Our range is appreciated for its hassle free performance, easy operation, durability and low maintenance.

Step Pulleys

C. I Step Pulley(Medium)

Step Pulley (Big Size)

Alluminium Step Pulley

INDUSTRIAL CASTING:

The range of industrial castings offered by us are precision engineered to deliver optimum performance and service life standards. Our process expertise also allow us to make them compatible as per the present and emerging industrial needs.

Gun Metal Casting

CI Casting

Casting (Pulley)

Casting (Foundry Casting)

FLOUR MILL(HORIZONTAL TYPE)9910244050:

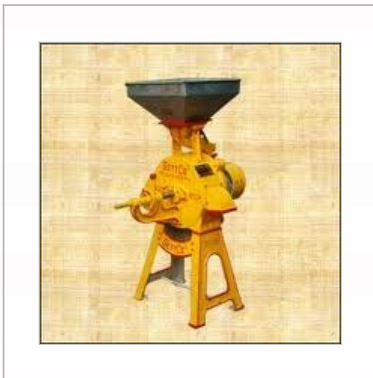

Horizontal Grinding mill are for cost effective grinding of wheat, corn, spices, teff, sorghum, millet. We are engaged in the manufacturing in variety of technically advanced Horizontal Flour mill machines. They are capable of producing flour in high nutritional value with their unique feature cool grinding. This machine is multipurpose use. This machine is very simple to operate and easy to maintain.

Flour Mill (Horizontal Type Chakki)

Horizontal Chakki

Vertical Chakki

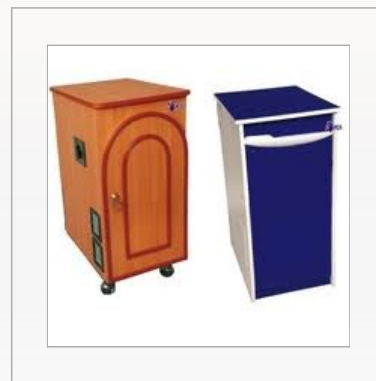

Emery Stones

DOMESTIC / STEEL BODY FLOUR MACHINE 9910244050:

We are engaged in offering horizontal flour mill, which is technically designed to cater the varied needs of clients for various domestic uses. The horizontal flour mill is appreciated among clients for high durability, perfect functioning and high efficiency. Due to these features, these flour mills are used in grinding of jawar, wheat, rice, and dal.

Domestic Flour Mill Machine(Wooden Cabinet)

Wooden Cabinet Type Machine

Round Model Flour Mill(Steel Body)

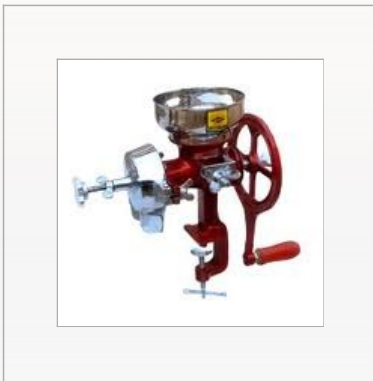

Steel Body Domestic Flour Mill

DOMESTIC & COMMERCIAL APPLIANCES (CHOWDHRY MAKE)9910244050:

We are counted as prominent SUPPLIER & TRADER of home appliances. Our exhaustive range of appliances is known for low power consumption .products are under the brand name CHOWDHRY.

Domestic Grinder

Multi Purpose Grinder (Wet/ Dry Grinder)

Gravy Machine (Pulveriser)

Meat Masala Mincer/ hand Operated

Other Products:

Aluminum Impellers

Pump Casing Cover And Casting

Cast Iron Both Side Heavy Duty Pulleys

Engine Pulley

Bajaj Mill Stores

Other Products:

Randha Pulley(Wood Cutting Machines)

Sand Casting (Foundry)

Range In Emery Stones

Power Meat & Masala Mincer

Bajaj Mill Stores

Other Products:

Pista/ Badam/ Chips
Cutter

Aluminium Fruit Juicer

Nut Cutter

Mango Shake Machine

Bajaj Mill Stores

- Company Factsheet -

Year of Establishment	1979
Nature of Business	› Supplier
Total Number of Employees	11 to 25 People
Major Markets	› Indian Subcontinent
Primary Competitive Advantage	› Experienced R & D Department › Good Financial Position & TQM › Large Product Line › Large Production Capacity › OEM Capability › Provide Customized Solutions
Contract Manufacturing	› Design Service Offered › OEM Service Offered
